## SUMMARY

Motivated college student pursuing a Bachelor's degree in Computer Science. Experienced in developing web applications through coursework. Intermediate in Java, Python, and HTML/CSS with a good understanding in data structures and algorithms. Proven ability to manage projects and collaborate in team settings. Seeking an internship opportunity to apply my skills and gain practical experience in the tech industry.

---

## EXPERIENCE

### Generative Adversial Network (GAN)

March 2023 - Aug 2023

- Developed a project on Generative Adversarial Networks (GANs) to generate random images and create new images based on user-provided input
- Utilized HTML, CSS, JavaScript for the frontend using Tailwind, and Python with libraries such as NumPy, TensorFlow and Pandas for data visualization. Implemented machine learning concepts to train the GAN model

### Member of Nvidia Grill Training

Dec 2023 - Present

- Understanding of YOLO Algorithm
- Experience in projects like PPE Kit Violation Detection and Automated Attendance System

---

## EDUCATION

### Bachelor of Technology (Computer Science & Engineering)

Nov 2021 - Present

ABES Institute of Technology, Ghaziabad

- CGPA (till 5th Semester) - 7.0

### HSC

Shah Faiz Public School - 86%

April 2020 - March 2021

### SSC

Shah Faiz Public School - 94%

April 2018 - March 2019

---

## ADDITIONAL INFORMATION

- **Technical Skills:** Project Management, Data Structure and Algorithm, YOLO Algorithm
- **Languages:** HTML, CSS, Python, C, C++, Java
- **Certifications:** Bharat Intern (Frontend Development), SoftPro India (Web Technology), NPTEL Introduction to Internet of Things
- **Soft Skills:** Teamwork, Time Management, Problem Solving
